Career Objective	Aspiring AI/ML Developer with specialization in Generative Artificial Intelligence seeking an opportunity to apply technical and problem-solving skills in a growth-oriented organization.	
Experience	Genial Digitech Pvt. Ltd - Project Intern	Dec 2025 – Mar 2026
	Developed an AI-based migrant worker support platform using Python and MySQL Implemented OPTICS and K-Means clustering for workforce and survey analysis Built QR verification, job recommendation, and analytics modules	
	AICTE (AWS Academy) - AI/ML Intern	Apr 2025 – Jun 2025
	Worked on supervised and unsupervised ML models using Python Performed data preprocessing and model evaluation	
	Cognifyz Technologies - ML Intern	Apr 2025 – May 2025
Projects	Built regression and recommendation models using Python and Scikit-learn Worked on restaurant data analysis and prediction systems	
	CodSoft Technologies - AI Intern	Jun 2024 – Jul 2024
	Created a rule-based chatbot using conditional logic for handling user queries Built an unbeatable Tic-Tac-Toe AI using the Minimax algorithm Developed a recommendation system using collaborative and content-based filtering.	
	LCC - Machine Learning Intern	Sep 2023 – Mar 2024
	Contributed to a heart disease prediction project using ML algorithms Assisted in model training and data analysis	
Education	SRM Institute of Science and Technology, Chennai	June 2024 - May 2026
	MCA in Generative Artificial Intelligence 9.70 CGPA	
Projects	Chinmaya College of Arts Commerce and Science, Tripunithura, Kerala	June 2021 - March 2024
	BCA 8.94 CGPA	
Technical Skills	MigrantConnect – AI-Based Migrant Worker Support Platform	
	Built an AI-driven migrant workforce management system using Python and MySQL with OPTICS and K-Means clustering for geo-spatial workforce analysis and survey-based problem identification. Implemented QR-based worker verification, job recommendation engine, analytics dashboard, welfare scheme management, and real-time workforce visualization.	
	AI-Based Automated Timetable Generator	
	Built an AI-driven web system using Google OR-Tools (CP-SAT) to generate conflict-free academic timetables with strict constraint enforcement. Implemented two-phase optimization (AI + greedy heuristics) ensuring balanced faculty workload, lab allocation, elective synchronization, and dynamic staff substitution.	
	Pneumonia Detection Using Chest X-Ray Images	
Certifications	Developed a deep learning-based medical diagnosis system using CNN architectures for pneumonia detection from chest X-ray images. Implemented image preprocessing, model training, performance evaluation, and prediction visualization using Python and TensorFlow.	
	First Sight – Online Dating Website	
	Designed and developed a responsive full-stack dating platform using HTML, CSS, JavaScript, PHP, and MySQL. Implemented secure authentication, profile management, matchmaking features, and database-driven user interaction modules.	
	•Programming Languages: Python, Java, JavaScript, PHP	
	•Web Technologies: HTML, CSS, Bootstrap	
Personal Skills	•Database: MySQL	
	•AI/ML Technologies: Machine Learning, Deep Learning, Generative AI, CNN, Scikit-learn, TensorFlow	
	•Data Analysis: Pandas, NumPy, Matplotlib	
	•AWS Academy Machine Learning Foundations	
	•Core Python and Data Science using python by Chinmaya College	
Achievements & Awards	•Deep Learning - PDPM Indian Institute of Information Technology, Jabalpur	
	Quick learner with strong communication skills, A team-oriented mindset, Ability to take on new responsibilities.	
	•Topper of Mathematics and Statistics Department 2026 - SRM University	
	•Department Topper Award (2021-2024) – Chinmaya College for Academic Excellence	
	•Awarded Certificate of Achievement by Indian Institute of Information Technology, Design and Manufacturing Jabalpur for performance in Deep Learning	
Languages	Konkani (Native), Malayalam (Read, Write & Speak), English (Fluent), Hindi (Intermediate), Tamil (Speak)
